St. Louis Urban Gardening Symposium

Brightside St. Louis will host an Urban Gardening Symposium on Saturday, June 21, 2014 in the Demonstration Garden located at 4646 Shenandoah Avenue. Registration begins at 8:30 a.m.

The success of every garden begins with preparation and planning and urban gardens have a distinct set of criteria that should be considered. Buildings, sidewalks, overhead wires, underground utilities, and storm water runoff are elements of the urban environment that require special attention when planning and planting your garden. To assist urban gardeners in navigating these conditions, the symposium will feature a series of 25-minute workshops led by experts in their respective fields.

Cost

A \$10 fee allows you to participate in up to five workshops and the Q&A session. The fee will be waived for St. Louis city residents who participate in the Neighbors Naturescaping workshop.

Registration

Register online at tinyurl.com/gardenurban or call 314-400-2115. Space is limited and will be filled on a first-come first-served basis. Visit the registration website for workshop descriptions.

Agenda
