ST. LOUIS URBAN GARDENING SYMPOSIUM

The 2022 St. Louis Urban Gardening Symposium will be held on Saturday, June 4th in Brightside's Demonstration Garden at 4646 Shenandoah Ave. The symposium will feature two special guest speakers leading hour-long presentations. We're pleased to have **Gerardo Camilo**, Ph.D., Biology professor at Saint Louis University and **Scott Woodbury**, Horticulture Manager at Missouri Botanical Garden's Shaw Nature Reserve join us this year! These two presentations will be offered virtually as well.

Following these special presentations, two 30-minute workshops led by experts in their respective fields will help gardeners learn how to plan, plant and care for a neighborhood or home garden. There will be opportunities to "Ask the MO Dept. of Conservation (MDC) Experts" between sessions and to purchase native plants after the workshops.

Event Cost: Only \$10

Register online at BrightsideSTL.org
or call 314-772-4646

Space is limited! Be sure to register early!

Neighbors Naturescaping participants and volunteers are encouraged to attend and can take part in this event at no cost. Reserve your spot by calling Brightside directly at 314-772-4646.
